*"I think your system is great – I really like it. It's so easy. It's easier, quicker, and there's less chance for error. In fact it's so simple the kids could run it."*

## Dinner Money Administration

### Manage school income more effectively

Tucasi creates software systems that help schools manage income more effectively. We cover the whole range of non-grant income including trips, uniform, charities, revision guides, dinner money, clubs, lettings etc. Schools that are using our software say that it helps them reduce workload; create more payment options for parents; get better control over non-grant income; and improve the audit trail.

-  Reduce workload in school
-  Create payment options for parents
-  Improve auditability

### Taking the strain out of dinner money admin

If your school is collecting dinner money then this system is for you. It keeps track of how many dinners a child has had and how much they've paid. It calculates account balances as it goes and can produce a statement of meals-taken and payments for any child which can be used to help resolve parental queries. The system can identify parents that have fallen behind with payments and will automatically create personalised reminder letters for them. It will also produce the reconciliation of meals and payments for the weekly catering return.

Our new Classroom Edition can be networked to interactive whiteboards in the classroom which then allows children to register themselves if they are having dinner.

### Features

-  Keeps record of who has had a school lunch on any given day.
-  Records receipt of payment from parents.
-  Calculates account balance for each child.
-  Generates reminder letters for parents who have fallen behind with payments.
-  Can create weekly catering return automatically.
-  Classroom Edition allows children to register themselves for lunch.

### Advantages

-  Time saving from automated procedures (e.g. reminder letters).
-  Better control; you have instant access to all relevant data.
-  Improved audit trail; everything is recorded.
